Writer/Artist Statement

My paintings and drawings reflect shapes and forms, both abstract and realistic, that I find in nature on Earth and in the cosmos. I use these elements as a springboard into my philosophy of visionary art and literature. The work reflects my interest in seeing beyond our normal vision into the metaphysical aspect of the universe. I express my ideas of current and future interactions of conscious and unconscious energy, and the human life.

I have written a novel, *Between Two Worlds*, about other worlds and realities. My paintings and drawings are used to complement the text in conveying the theme. My written work includes eight poetry books, *The Secret Heart*, *I Live Under the Towering Redwoods*, *Poems about the Stars*, *Everyday Secrets*, *Ken Kesey's First Night at the Beat Museum*, *Jerry Garcia in Heaven Misses Us Too*, *Mad Respect*, and *Space, Time, Matter, Energy*. The poetry compilation, *Continent of Light*, published in 2011, includes my work. America's only national British newspaper, *Union Jack*, published two of my articles.

I am currently developing a five act ballet titled *An Artist's Dilemma and Compromise*.
