### What Happens If We Unify

#### Everyone's Religion?

by Leah Lubin

I do believe that at this point  
we all agree that there is only  
one God that we all share.

What ever you call him/her is fine.

Whatever, your religious choices  
are up to you.

Won't actually make any  
difference to the one God, since  
God stays the same.

So, what happens if we unify  
everyone's religion?

Just say it's OK to believe any  
way you choose.

We're all different.

There will be freedom.

Let it be.

### Multiple Universes and Other Realities

by Leah Lubin

When in the process of trying

to figure out life,  
understanding the universe comes first.

The truth is that we are part of  
multiple universes and other realities.

Ours includes the planets, stars,  
moon, and sun.

But, on other planets, the rules change,  
the games different.

So, I don't believe that their business is  
ours to know.

### To Walk Where No One Has Walked Before

by Leah Lubin

Neil Armstrong left us.

Here on Earth,

he played a major role

for us all to witness.

The first human on the Moon.

Just imagine for one moment

what it must have been like to walk

where no one has walked before

Of course, it takes bravery and

imagination, seeing yourself  
 walking on the Moon.  
 Willing to risk it all.  
 What if you fell into a hole?  
 You must have thought of family  
 and friends.  
 America.  
 You and me.  
 Then, he did his walk.  
 His thing.  
 His contribution to us here on Earth.  
 And we say, thank you Neil Armstrong.
