Transformation by Leah Lubin

Words, words, what are the words

that describe a human going through transformation?

Continuing to welcome in life's challenges and
not take it personally.

I by myself reflect my last few months on Earth and
wonder about what the real meaning of it all is.

There must be a hidden agenda I decide,

"That's what's going on".

But exactly what the agenda is, well that information
is still not available to me.

At night, I pray and hope for the best, but frequently
struggle to find the answers that can bring in peace.

But finally daylight does arrive bringing hope and I
welcome it in with a "Where have you been all night?

Really, couldn't you come sooner?"

Maintaining a good attitude seems important.

But then so does taking the high road.

Occasionally telling everyone and everything to just go jump.

Since I've already decided things are going to improve and
quickly for the better.
