To Whom it may concern,

Approximately one year ago Leah Raim assumed the position of Public Affairs Director at KFJC. During her term she initiated many fine programs. One of these was Healthline a program dedicated to enlightening the community to Services and alternatives within the medical field. In cooperation with Dr William Sampson, Leah interviewed Health specialists and professional doctors. The program continues to run on the air on Wednesday afternoons at 1:00 pm for one hour. I feel that Leah is the person most qualified to host this program and that this program does indeed provide a valuable community service. I hope that she will be allowed to continue. If you have any questions, you can reach me at the above telephone number. Your cooperation is most appreciated.

Sincerely yours,

Robert E. Zepernick II
General Manager, KFJC.

To Whom It May Concern:

Re: Leah RAIM

Leah Raim, for the past year has periodically been the host of our call-in informational medical program called "Health-Line".

In this capacity she has very ably handled numerous guests, and has been quite imaginative in her questioning and has been effective in eliciting significant and interesting pieces of information.

The program has been popular, and the guests have also expressed their appreciation for Ms. Raim's effectiveness.

Sincerely,

Wallace I. Sampson, M.D.
